citysense **For Partners**

PILOT IN DEVELOPMENT / WEBSITE CONCEPT

Local services, understood in context.

CitySense is developing contextual discovery in Batumi. We are exploring participation with service providers and distribution partners.

FOUNDING PARTNER PARTICIPATION / PROPOSED

No commitments, guaranteed leads or working portal.

01 / SERVICE PARTNERS

Meet relevant visitor needs responsibly.

Tours and activities / private drivers and transfers / paid attractions / sports facilities / eligible local services.

A proposed participation path: explain service facts, evidence rights and permitted contact. Actual categories and partners remain to be approved.

---

02 / DISTRIBUTION PARTNERS

Explore contextual discovery for your guests.

Hotels / apartments / other accommodation. Potential airport-area commercial touchpoints, subject to permissions and agreed incentives.

Agree placement, audience, referral terms and responsibilities before a bounded test. No placement or conversion improvement is promised.

THE PROPOSED VALUE PATH / NOT LIVE

01 Tourist need

02 Eligibility before suitability

03 Relevant business

04 Permitted contact or request

05 Partner response

Required evidence and permissions first. A request is not confirmation; partner response and fulfillment remain separate.

EXPRESS INTEREST / STATIC FORM CONCEPT

Help shape the first Batumi use case.

Business name

Service Partner or Distribution Partner

One preferred reply channel

Optional short description

Preview only · verified contact channel pending

Express interest · proposed ↗

No submission or collection in this concept. Before a real enquiry: publish the verified recipient, purpose, retention and consent information.

A BOUNDED ONBOARDING OUTLINE

01 Introduction and participation path

02 Identity, evidence rights and permission review

03 Service facts and contact rules

04 Participation terms and separately authorized test

FUTURE / AGENT-ACCESSIBLE SERVICES

Evidence and permission, beyond a single channel.

Authorized AI-agent discovery is a separately gated future direction, not an operating partner capability.

---

citysense / developing city intelligence

LANDING-WEB concept only. PRODUCT-APP design has separate Founder gates.

Contact / publisher / jurisdiction: awaiting Founder confirmation. Privacy / Terms / Affiliate Disclosure: review pending; no working destinations.

No affiliate links active. Any future commission relationship requires authorization and disclosure; commercial priority remains inactive.
